 <p>Smooth Aluminum 0.100 inch</p>	 <p>Diamond Tread Plate 1/8, 3/16 or 1/4 inch</p>

Slip-Resistant Floor Option

NextGrip
The new model NextGrip is a slip-resistant floor featuring a unique embossed pattern strategically repeated in order to increase the points of contact with a shoe sole or an object resulting in an improved stability and adherence.

Offered in:

- > Stainless steel 18 gauge #2B
- > Galvanized steel in 18 or 16 gauge
- > Smooth aluminum 0.100 inch

DISCLAIMER

Please note that the colours from this colour guide may vary from actual steel samples as they are reproduced using a different medium. They may also differ if viewed on a computer due to screen differences.

While every effort is made to reproduce the colour samples as accurately as possible, the limitations of the printing process may result in the actual colours differing slightly from those shown. Steel colours may also vary depending on the lighting in the area where they are viewed.

IMPORTANT NOTE FOR ALL COLOUR MATCHING

Colours can vary slightly between paint batches and production runs. Over extended periods of time, the colour of installed panels will weather and will therefore vary from any replacement panels or newly added panels. Furthermore, different paint systems have different weathering behaviours.

To improve colour matching, we recommend:

1. Including the original project identification and location on each order.
2. Ordering enough material in each colour to complete the entire project.
3. Cross-referencing previous orders when repeats are necessary.
4. Inserting an elevation change or break in the building structure for additions or when it is necessary to use different production lots.
5. Never mix panels from two different paint systems, even if the original colour is the same. Colour differences will develop over time.

This colour guide is based on product availability at the time of printing. The manufacturers reserve the right to discontinue colours without prior notice. Please confirm availability before placing your order.
