

CONVENIENCE STORES AND BEER CAVES

Benefit
from our 35 years
of expertise in the
industry for a complete
turnkey solution for
walk-in coolers
and freezers

1 A COMPLETE SOLUTION

Norbec offers turnkey solutions adapted to the specific needs of its customers, which distinguishes them from the competition. The custom walk-ins are offered along with a variety of doors and options ensuring the final product is perfect for each project.

2 A TRUSTED PARTNER

From the design to the final product, quality is of the utmost importance for each product built. Accompanied by an experienced team throughout the process as well as once the project is completed, clients can be assured that everything will be taken care of.

3 DURABLE PRODUCTS

Norbec distinguishes themselves by offering durable and reliable products that take into account space constraints, user experience as well as being energy efficient. We offer trustworthy products that enable retailers to offer the best shopping and work environments for their employees and clients alike.

Norbec offers a one-stop shop for the manufacturing of walk-in coolers, freezers and doors as well as accessories, refrigeration and installation.

WALK-IN COOLERS AND FREEZERS: A CHOICE OF CONTINUOUS OR CAMLOCK PANELS ARE OFFERED DEPENDING ON THE PROJECT SIZE AND NEEDS

Camlock Panels

Camlock panels are made up of a closed-cell polyurethane core eliminating any possible moisture accumulation and offering a higher thermal value per inch. Panel joints used along with integrated camlocks provide a water and vapour proof seal required for all types of environments. Furthermore, the elimination of thermal bridges results in efficient insulation which leads to reduced energy costs.

Panel thicknesses available (with a maximum height of 18 feet) : 4 and 5 inches.

Norex Panels

Norex is a polyisocyanurate (polyurethane) core panel designed for extensive projects. In addition to offering unparalleled thermal value, this panel has an equalization compartment that prevents water from being drawn inward, thereby reducing the risk of moisture and water infiltration. This panel is ideal for large-scale walk-ins combined with the right refrigeration system.

Panel thicknesses available: 4, 5 and 6 inches.

> Sizes: custom for all needs

> Height: up to 18'

> Thickness: 4", & 5"

> R-Value of the panel:	Cooler	Freezer
	3: R21.6	3: R24
	4: R28.8	4: R32
	5: R36	5: R40

WALK-IN SIZES

Norbec walk-ins are made of polyurethane core panels incorporated with highly resistant camlocks foamed into place, which stand the test of time in any situation. These walk-ins are highly flexible to accommodate a wide range of room configurations, including ones with non-conventional angles.

- Offered in multiple elegant finishes
- Immune to water pressure washing and cleaning products
- Resistant to surface marks and corrosion

PROFILES AND FINISHES

Norbec offers a wide variety of colours and finishes to suit all projects. A silkline profile is offered along with the option of having a smooth or embossed finish, if desired. Default panels are offered in pre-painted white galvanized steel in 26 gauge.

CUSTOM MANUFACTURED DOORS

All doors are customizable for any space constraints and all types of daily usage

Hinge Doors

Sliding Doors

Traffic Doors

Display Doors

For convenience and grocery stores, the need for specific doors is essential especially in different dimensions as walk-ins are the central focus of a store, keeping food fresh for retailers' clients, providing space optimization and flexibility. Norbec strives to deliver the best doors for every project's needs, contributing to a complete solution to their clients.

ADVANTAGES

- Great flexibility
- Superior quality
- Robust structure
- Water resistant
- Superior insulating properties
- Quick and easy installation

The glass doors are engineered to withstand the daily uses of employees and customers alike. They feature superior energy efficient technologies as well as being low maintenance and increasing product visibility. Doors are offered with a maximum width of 30" and height of 79". Lighting, shelving with or without wheels and more are also offered with the selection of glass doors.

Visit norbec.com for more information.

Maximize the value of any project by adding from our wide range of accessories

FOR A COMPLETE SOLUTION

Multiple accessories can be added once the choice of a walk-in is selected. A few examples are listed below but the options are limitless. Please contact a sales representative for more information.

- Shelvings (gravity flow or mobile)
- Curtain slats
- Bumper plates
- Refrigeration systems
- Refrigeration system control modules
- Windows (standard or custom)
- Foot pedals
- Heated door frames
- LED or incandescent lighting
- Protection plates
- Slip resistant floors
- Door closers

Visit norbec.com for the complete list of accessories.

REFRIGERATION

Norbec offers multiple types of refrigeration chosen specifically for any project size. They are prewired into the panels during the manufacturing for a seamless and quick installation. The refrigeration selection is chosen with refrigeration specialists guaranteeing the right product depending on the different types of environments.

CONTROLS FOR PEACE OF MIND

The Intelliref V2 and I3 modules are a great option to add to the refrigeration offering monitoring of the temperatures with data-logging, temperature controls as well as providing panic buttons and alarms. Visit norbec.com for more information about the different options available.

WARRANTY

Norbec has a 5-year warranty policy for panels and a 1-year warranty policy for materials and parts. Our after-sales team is always prepared and available to respond to any needs you may have.
