

Insulated metal panel solutions | Walk-in coolers & freezers

# NEW MANUFACTURING PLANT

STRATHROY, ONTARIO

OPENING 2024

## NEW INSULATED METAL PANEL PLANT

Norbec, a leading manufacturer of insulated metal panels and walk-in coolers and freezers since 1982, is pleased to announce that it is investing \$45 million to build a state-of-the-art production plant in Strathroy, Ontario. Along with existing plants in Boucherville and Saint-Hyacinthe, Québec, this new facility will enable Norbec to expand its range of products used in all types of architectural, commercial and industrial applications. The project will break ground June 6, 2023, with the new plant slated to be fully operational in the summer of 2024.

**\$45 MILLION INVESTMENT**

1 million square feet lot

State-of-the-art facility

70 new jobs

Norbec's 3rd plant in Canada

# BUILDING THE FUTURE ONE PANEL AT A TIME

- The main objective of building the new plant is to increase production capacity and support Norbec's growth. The decision to expand is driven by rapid growth, the desire to better serve customers and to provide more innovative solutions for the market.
- The plant will be equipped with state-of-the-art, fully automated technology and machinery that will allow for the most efficient manufacturing process.
- This will not only result in high quality products, but will also reduce lead times and increase production capacity.

- With this investment, Norbec will have multiple production facilities, which will allow it to offer new products and provide architects with more design options.
- This investment demonstrates Norbec's commitment to meeting the needs of its customers and providing innovative solutions that contribute to sustainable and environmentally friendly buildings.
- The company's growing success in the industry is a testament to its commitment to excellence and its ability to anticipate and respond to market demand.

# STRATEGICALLY POSITIONED TO BETTER SERVE THE ONTARIO AND US MARKET

- Strengthen Norbec's presence in Ontario and the Midwest, establishing a strong foothold in the region.
- Enhance responsiveness and flexibility through a local presence, supporting new and existing partners.
- Optimize proximity to the U.S border to better serve the growing U.S market.
- Improve delivery times and streamline logistics operations.
- Enhance customer experience by providing high-quality products and services.
