

Walk-in coolers & freezers | Insulated metal panel solutions

SUPERMARKET SOLUTIONS

Built Once. Built Right.

THE NORBEC DIFFERENCE

Why choose Norbec for your supermarket cold room needs

- Long-term performance & reliability
- Lower total cost of ownership
- Proven in high-demand environments
- 15 year warranty on walk-in panels
- Wide range of heavy-duty doors

Combine the familiarity of camlock with the innovation of continuous panels

The longer you own it, the better the investment looks.

THE HIDDEN COST OF “STANDARD” COLD ROOMS

Structural repairs

Reinforcement and structural repairs can add up over time.

Moisture and degradation

Organic materials absorb moisture and degrade over time.

Sanitation Risks

Deterioration can lead to mold, bacteria and cleaning challenges.

Operational downtime

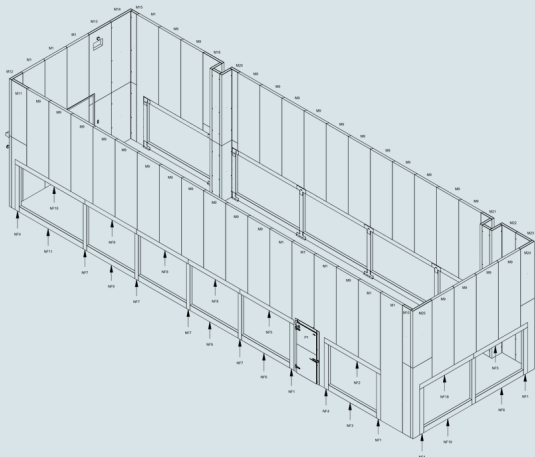

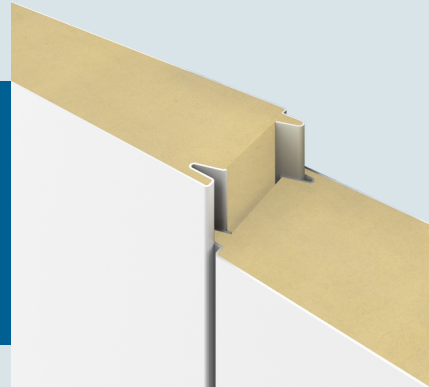

Repairs and retrofits disrupt operations and impact sales.

Higher Lifetime Cost

The lowest upfront cost can become the highest long-term cost.

What's inside your panels matters more than what you see.

THE HYBRID COLD ROOM SOLUTION

Key features of this solution:

- Camlock corner panel walls with continuous panel walls in between, completed with a continuous ceiling panel and a camlock prefab floor (when required).
- Panels are tested by an independent third-party laboratory (QAI)
- Meets DOE requirements
- Pre-assembled NSF compliant gasket
- Factory-applied butyl
